

SHAIK THAMKIN BANU

Bengaluru, Karnataka | +91 9182099373 | thamkinshaik@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

AI & ML graduate with hands-on experience turning messy, complex data into clear, decision-ready insights. Skilled in Python, SQL, Power BI, and Tableau, with practical experience analyzing large real-world datasets (50,000+ records) during a Data Analyst internship, and building and deploying AI agents end-to-end on GCP through Google Cloud's Gen AI Academy. Always learning — currently upskilling on Databricks and Azure.

TECHNICAL SKILLS

- **Programming:** Python, SQL (Joins, Subqueries, CTEs, Window Functions)
- **Data Visualization:** Power BI (DAX, Power Query, Data Modelling), Tableau, Excel (Pivot Tables, VLOOKUP/XLOOKUP)
- **Cloud & Data Engineering:** Google Cloud Platform (ETL, AI agent development, automation); upskilling on Databricks & Azure
- **Analysis & Tools:** KPI Reporting, Data Modelling, Data Validation & Reconciliation, MySQL, Pandas, NumPy, Matplotlib, Seaborn

INTERNSHIP EXPERIENCE

Data Analyst Intern | AI Variant Feb 2026 – Aug 2026

- Analyzed 50,000+ employee records across 6 departments (Sales, R&D, Software, HR, Support, Hardware) to identify key attrition drivers, supporting workforce retention strategy through Power BI KPI reporting.
- Worked across 5 relational datasets (Customer, Policy, Claims, Payment, Risk) covering 5,000+ customer and policy records, joining and reconciling data using SQL and Python (Pandas) for accuracy.
- Analyzed claims data (34% approved, 33% pending, 33% denied), risk segmentation (Medium/High/Low), and renewal/policy-status trends (Active/Lapsed/Terminated) to support data-driven risk assessment and retention recommendations.

PROJECTS

- **HR Analytics Dashboard (Excel, SQL, Power BI):** Analyzed 50,000+ employee records across 6 departments, building a Power BI dashboard with DAX-driven KPIs to identify attrition drivers (OverTime, Job Satisfaction, Years at Company), reconciling data via SQL joins and validation queries. [GitHub](#)
- **Insurance Data Analysis (Python, Pandas, SQL, Power BI):** Analyzed 5,000+ policy and claims records across customer, policy, claims, and payment datasets; identified claim approval trends (34% approved) and risk segments (Medium/High/Low) via SQL joins and Power BI reports — completed during Data Analyst Internship at AI Variant.
- **Bird Species Classification — CNN (Python, OpenCV):** Trained a CNN to classify Indian bird species from audio using MFCC and spectrogram features.
- **COVID-19 Global Impact Dashboard (Power BI, Excel, SQL):** Built an interactive dashboard tracking global cases, deaths, and CFR with dynamic slicers by country/continent. [GitHub](#)

PUBLICATIONS

- “A Novel Deep Learning Framework for Automated Identification and Classification of Indian Bird Species Using Convolutional Neural Networks” — presented at the 9th International Conference on Innovative Computing and Communication (ICICC-2026); published by Springer. [View Paper](#)

EDUCATION

B.Tech in Computer Science & Engineering (AI & ML) | Siddharth Institute of Engineering and Technology, Puttur 2022 – 2026
CGPA: 8.45

CERTIFICATIONS

- Data Analyst Certification — ExcelR (Completed with Distinction)
- Gen AI Academy (APAC Edition) — Hack2Skill x Google Cloud (AI Agents, Automation, Data-Driven Decisions)
- Microsoft Excel for Data Analyst — Infosys Springboard
- Python Certification — GeeksforGeeks SkillUp
- The Joy of Computing using Python — NPTEL (IIT Madras)
